Summary

Software Engineer currently at Flix Premiere, specialising in developing and creating well-structured, functional, and clean user interfaces for applications across multiple platforms, including mobile apps, smart TVs, and desktop applications using React, React Native, and Next.js as well as backend APIs. Additionally, I contribute to Entrepreneur Seminar, an educational platform designed to educate individuals in their entrepreneurial journey. I also work on Warpspeed, an AI tool currently in development, aimed at elevating the use of daily tools to achieve greater productivity.

Experience
